

ARTIFICIAL TURF

TACOMA

Get the lush lawn look without the high cost! Everlast Turf Tacoma synthetic grass is durable, dense, and perfect for homes or businesses with heavy foot traffic. Its 90-ounce face weight, advanced tuft bind technology, and perforated backing ensure a natural appearance, easy drainage, and lasting durability.

Backed by a 15-year warranty, Tacoma turf stays green and pristine with minimal maintenance!

CASCADE

Everlast Cascade offers a lush, natural look with its 1.75" pile height and durable 3D Curvy "W" fiber, perfect for heavy use. Non-toxic and lead-free, it's safe for kids and pets. With green and tan thatch for added realism, it suits any landscape.

Designed for performance, it drains over 30 inches of rain per hour, preventing puddles and pests. Triple-reinforced tuft bind technology ensures lasting durability.

EVERLAST PET TURF

Everlast Pet synthetic turf is perfect for your furry friends to run, jump, and play without the mess of muddy paws or bugs!

With realistic field and olive green blades and a brown thatch layer, this durable turf is designed for pets of all sizes. Its perforated backing ensures quick drainage for easy cleanup, while tuft bind technology adds strength.

At 1-inch pile height, Everlast Pet turf is ideal for pets and a great choice for landscaping too!

DIAMOND PRO FESCUE

Diamond Pro Fescue combines realistic field and mid-olive green tones with a green and tan thatch for a natural look. With a 75-ounce face weight and W-shaped blades that spring back into shape, it's built for high-traffic areas.

Triple-reinforced blades and a perforated backing ensure durability and easy drainage, making it ideal for heavy use.
